Actors:	
Trade Marketing (CBU & VBU)	Terminals

High-Level OEM Negotiations Process (Figure 1)

Trade Marketing (CBU & VBU)

- Trade Marketing starts the OEM Negotiation process
- The Trade Marketing user can either be:
  - CBU
  - VBU
- The Trade Marketing user can either choose either of these two processes:
  - The Trade Marketing User can wait for terminals
  - The Trade Marketing User can review the proto headlines

Review Proto Headlines

- The Trade Marketing user can review the Proto Headlines
- The Trade Marketing User can make changes:
  - If Yes, then the Trade marketing user can update the proto headlines, then the user will be reverted to review the changes made
  - If No, the process will end

Terminals

- Once Trade Marketing has started the OEM Negotiations, then the Terminals User will have the ability to review the Device List
- The Terminals User will negotiate the CTD with the OEM

Use Previous CTD

- The Terminals User has the option of the use of previous CTD:
  - If Yes, the Terminals User will send an email Notification to Trade Marketing indicating that Terminals has used the previous CTD
  - If No, the Terminal User will have the ability to add supplier ambitions to the OEM, once the Terminals User has added the supplier ambitions, then the Terminals User will send an Email to Trade Marketing. Indicating that Terminals has added the previous CTD and that Terminals has Added Supplier Ambitions
- Once the Terminals have notified Trade Marketing about the changes to the OEMs, then Terminals will wait for confirmation from Trade Marketing about the changes made

Wait for Terminals

- Trade Marketing will receive an Email Notification from Terminals that will indicate that either Terminal used previous CTD or the Terminals User added supplier ambitions
- Once the Trade Marketing user has received the email notification from Terminals, the Trade Marketing User can approve CTD's:
  - If Yes, the Trade Marketing user will send a final confirmation Terminals.
  - If No, the Trade Marketing User will send an email to Terminals, requesting changes and Amendments
- End of the process for Terminals.

- Terminals will receive an email notification stating either:
  - Final confirmation of the changes
  - Requesting Changes and Amendments

Confirmation Received

- Once Terminals has received confirmation about the changes, the Terminals user can either:
  - If No, DDE will redirect the Terminals User back to Negotiate CTD with the OEM and the Process mentioned above will repeat until Trade Marketing has stated that the changes are sufficient
  - If Yes, those changes don't need to change and that will be the end of the Terminals Process
